

## Professional sound level meter, Class II

### Features

- **Professional sound level meter** for measuring noise in areas such as, for example, the environment, mechanical applications, car industry and much more
- Measures the sound intensity in the workplace
- Helps in differentiating between normal noise influences, and excessive noise, e.g. in a production hall
- **1 Data interface RS-232**, included
- **2** Delivered in a hard carrying case
- **Multi measuring functions:**
  - Lp: Standard sound level measuring function
  - Leq: Energy equivalent sound level measuring mode (type A)
  - Ln: Shows the deviation from a pre-defined limit in %

- Selectable methods of evaluation:
  - A: As sensitive as the human ear
  - C: Sensitive for noisier environmental conditions, where there are machines, plant, motors etc.
  - F: For areas where sound intensity does not vary
- **Function to set limits:** Programmable target value for go/no-go test values
- **Track function** for continuous recording of variable environmental conditions
- **Peak Hold Mode** to capture peaks
- **Internal memory for measured values**, for 30 measurements. Can be displayed on the PC

### Technical data

- Dimensions WxDxH 236x63x26 mm
- Battery operation, batteries not standard 4 x 1.5 V AAA
- Net weight approx. 170 g

### Accessories

- **Data transfer software**, interface cable included, SAUTER ATC-01
- **Adjustment device** for regular adjustment of the sound level meter, SAUTER ASU-01
- **Foam plastics protective cover**, SAUTER ASU-02

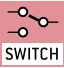

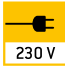

#### STANDARD

#### OPTION

| Model   | Type | Measuring range | Readout   |  |
|---------|------|-----------------|-----------|--|
|         |      | [Max]<br>dB     | [d]<br>dB |  |
| SAUTER  |      |                 |           |  |
| SU 130. | Lp A | 30 - 130        | 0,1       |  |
|         | Lp C | 35 - 130        |           |  |
|         | Lp F | 35 - 130        |           |  |

|  |   |   |   |   |   |
|--|---|---|---|---|---|
|    | <b>Adjusting program (CAL):</b><br>For quick setting of the balance's accuracy. External adjusting weight required.     |    | <b>Data interface Infrared:</b><br>To transfer data from the balance to a printer, PC or other peripheral devices.                            |    | <b>Battery operation:</b><br>Ready for battery operation. The battery type is specified for each device.            |
|    | <b>Calibration block:</b><br>standard for adjusting or correcting the measuring device.                                 |    | <b>Control outputs (optocoupler, digital I/O):</b><br>to connect relays, signal lamps, valves, etc.   |    | <b>Rechargeable battery pack:</b><br>rechargeable set.  |
|    | <b>Peak hold function:</b><br>capturing a peak value within a measuring process.  |    | <b>Analogue interface:</b><br>to connect a suitable peripheral device for analogue processing of the measurements.                            |    | <b>Mains adapter:</b><br>230V/50Hz in standard version for EU. On request GB, AUS or USA version available.         |
|    | <b>Scan mode:</b><br>continuous capture and display of measurements.  |    | <b>Statistics:</b><br>using the saved values, the device calculates statistical data, such as average value, standard deviation etc.          |    | <b>Power supply:</b><br>Integrated, 230V/50Hz in EU. More standards e.g. GB, AUS or USA on request.                 |
|    | <b>Push and Pull:</b><br>the measuring device can capture tension and compression forces.                               |    | <b>PC Software:</b><br>to transfer the measurements from the device to a PC.  |    | <b>Motorised drive:</b><br>The mechanical movement is carried out by a motorised drive.                             |
|    | <b>Length measurement:</b><br>captures the geometric dimensions of a test object or the movement during a test process. |    | <b>Printer:</b><br>a printer can be connected to the device to print out the measurements.  |    | <b>Fast-Move:</b><br>the total length of travel can be covered by a single lever movement.                          |
|    | <b>Focus function:</b><br>increases the measuring accuracy of a device within a defined measuring range.                |    | <b>GLP/ISO record keeping:</b><br>of measurements with date, time and serial number. Only with SAUTER printers.                               |    | <b>ISO Calibration:</b><br>The time required for ISO calibration is shown in days in the pictogram.                 |
|   | <b>Internal memory:</b><br>to save measurements in the device memory.   |   | <b>Measuring units:</b><br>Weighing units can be switched to e.g. non-metric at the touch of a key. Please refer to website for more details. |   | <b>Package shipment:</b><br>The time required for internal shipping preparations is shown in days in the pictogram. |
|  | <b>Data interface RS-232:</b><br>bidirectional, for connection of printer and PC.                                       |  | <b>Measuring with tolerance range:</b><br>Upper and lower limiting can be programmed individually, e.g. for sorting and dosing.               |  | <b>Pallet shipment:</b><br>The time required for internal shipping preparations is shown in days in the pictogram.  |
|  | <b>Data interface USB:</b><br>To connect the balance to a printer, PC or other peripheral devices.                      |  | <b>ZERO:</b><br>Resets the display to "0".  |  | <b>Warranty:</b><br>The warranty period is shown in the pictogram.  |
